

English Language Proficiency Policy

Galvanize does not offer English as a Second Language (ESL) instruction.

Our programs of study, textbooks, materials and all means of communication are delivered in English, and students are expected to be able to communicate proficiently in English or may be dismissed from the Galvanize educational program. Proficiency in this context is defined as being able to comprehensively read, write, speak and understand English in a variety of technical and non-technical contexts, to achieve a shared comprehension of program materials and objectives. It is essential to the structure of Galvanize programs that students are able to *clearly* and *meaningfully* communicate with each other and their instructors both in writing and verbally. Applicants who do not demonstrate the required levels of proficiency may be required to provide the following acceptable documentation.

Acceptable documentation of proficiency is:

1. English Language Tests:
 - a. TOEFL iBT Score of 80 or more
 - b. Duolingo score of 105 or more
1. Coursework Completion (must provide transcripts or proof of completion):
 - a. Graduate from a High School in the US with English Language coursework
 - b. Graduate from a US accredited High School outside the US
 - c. A certificate, associate, bachelor's, master's or doctoral degree from an accredited, state licensed, or ministry of education approved college or university within the past two years from an institution whose language of instruction is English

Other forms of documentation may be accepted and will be reviewed on an individual basis, please email regulatory@galvanize.com with inquiries.
